

BSI Standards Publication

Internet of things (IoT) — Data exchange platform for IoT services

Part 1: General requirements and architecture

National foreword

This British Standard is the UK implementation of ISO/IEC 30161-1:2020.

The UK participation in its preparation was entrusted to Technical Committee IOT/1, Internet of Things.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
