

DD CEN/TS 16157-3:2011

BSI Standards Publication

Intelligent transport systems — DATEX II data exchange specifications for traffic management and information

Part 3: Situation Publication

National foreword

This Draft for Development is the UK implementation of CEN/TS 16157-3:2011. DD ENV 13106:2000 and DD ENV 13777:2000 were withdrawn in 2007 as ENV 13106:2000 and ENV 13777:2000 expired without producing an EN standard.

DATEX II is founded on a single UML model which is made available in a useable format to all through the website, <http://www.datex2.eu/>.

This publication is not to be regarded as a British Standard.

It is being issued in the Draft for Development series of publications and is of a provisional nature. It should be applied on this provisional basis, so that information and experience of its practical application can be obtained.

Comments arising from the use of this Draft for Development are requested so that UK experience can be reported to the international organization responsible for its conversion to an international standard. A review of this publication will be initiated not later than 3 years after its publication by the international organization so that a decision can be taken on its status. Notification of the start of the review period will be made in an announcement in the appropriate issue of *Update Standards*.

According to the replies received by the end of the review period, the responsible BSI Committee will decide whether to support the conversion into an international Standard, to extend the life of the Technical Specification or to withdraw it. Comments should be sent to the Secretary of the responsible BSI Technical Committee at British Standards House, 389 Chiswick High Road, London W4 4AL.

The UK participation in its preparation was entrusted to Technical Committee EPL/278, Road transport informatics.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
