|----------------------------------------------------------------------------------|-----------|
| <b>Section 1 General .....</b>                                                   | <b>1</b>  |
| 1.1 Scope .....                                                                  | 1         |
| 1.2 Normative references .....                                                   | 1         |
| 1.3 Definitions .....                                                            | 2         |
| 1.4 General requirements and general requirements for tests ...                  | 4         |
| 1.5 Classification .....                                                         | 5         |
| 1.6 Identification, marking and documents .....                                  | 5         |
| 1.7 Power input .....                                                            | 9         |
| <b>Section 2 Environmental conditions .....</b>                                  | <b>10</b> |
| 2.1 Basic safety categories .....                                                | 10        |
| 2.2 Removable protective means .....                                             | 10        |
| 2.3 Environmental conditions .....                                               | 10        |
| <b>Section 3 Protection against electric shock hazards .....</b>                 | <b>11</b> |
| 3.1 General .....                                                                | 11        |
| 3.2 Requirements related to classification .....                                 | 11        |
| 3.3 Limitation of voltage and/or energy .....                                    | 11        |
| 3.4 Enclosures and protective covers .....                                       | 11        |
| 3.5 Separation .....                                                             | 11        |
| 3.6 Protective earthing, functional earthing and potential<br>equalization ..... | 11        |
| 3.7 Continuous leakage current and patient auxiliary currents ..                 | 11        |
| 3.8 Dielectric strength .....                                                    | 11        |
| <b>Section 4 Protection against mechanical hazards .....</b>                     | <b>12</b> |
| 4.1 Mechanical strength .....                                                    | 12        |
| 4.2 Moving parts .....                                                           | 12        |
