**Guidelines on types of glass of normal  
bulk-production composition and their test  
methods**

*Lignes directrices sur les types de verre de composition normale de  
production en vrac et leurs méthodes d'essai*

## Contents

|                                                                                                     |          |
|-----------------------------------------------------------------------------------------------------|----------|
| <b>1 Scope .....</b>                                                                                | <b>1</b> |
| <b>2 Normative references .....</b>                                                                 | <b>1</b> |
| <b>3 Main types of glass of normal bulk-production composition .....</b>                            | <b>2</b> |
| <b>4 Chemical properties of glass and glass articles .....</b>                                      | <b>2</b> |
| <b>4.1 General.....</b>                                                                             | <b>3</b> |
| <b>4.2 Glass as a material and glass as-delivered.....</b>                                          | <b>3</b> |
| <b>4.3 Test methods.....</b>                                                                        | <b>3</b> |
| <b>4.3.1 Hydrolytic resistance (see ISO 719, ISO 720, ISO 4802-1 and ISO 4802-2) .....</b>          | <b>3</b> |
| <b>4.3.2 Acid resistance (see ISO 1776).....</b>                                                    | <b>3</b> |
| <b>4.3.3 Alkali resistance (see ISO 695) .....</b>                                                  | <b>4</b> |
| <b>4.3.4 Other chemical test methods .....</b>                                                      | <b>4</b> |
| <b>4.4 Classifications of glass and glass articles according to their chemical properties .....</b> | <b>4</b> |
| <b>4.4.1 Principle of classifications.....</b>                                                      | <b>4</b> |
| <b>4.4.2 Classification table and/or limit values .....</b>                                         | <b>4</b> |
| <b>5 Physical properties.....</b>                                                                   | <b>7</b> |
| <b>5.1 Thermal properties .....</b>                                                                 | <b>7</b> |
| <b>5.2 Other physical properties .....</b>                                                          | <b>7</b> |
| <b>Annex A (informative) Bibliography .....</b>                                                     | <b>8</b> |
