
**Technical drawings — General principles of
presentation —**

Part 22:
Basic conventions and applications for leader
lines and reference lines

Dessins techniques — Principes généraux de représentation —

*Partie 22: Conventions de base et applications pour les traits de rappel de
cote et traits de référence*

Reference number
ISO 128-22:1999(E)

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) in all matters of electrotechnical standardization.

International Standards are drafted in accordance with the rules given in the ISO/IEC Directives, Part 3.

Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75% of the member bodies casting a vote.

International Standard ISO 128-22 was prepared by Technical Committee ISO/TC 10, *Technical drawings, product definition and related documentation*, Subcommittee SC 1, *Basic conventions*.

ISO 128 consists of the following parts, under the general title *Technical drawings — General principles of presentation*:

- *Part 20: Basic conventions for lines*
- *Part 21: Preparation of lines by CAD systems*
- *Part 22: Basic conventions and applications for leader lines and reference lines*
- *Part 23: Lines on construction drawings*
- *Part 24: Lines on mechanical engineering drawings*
- *Part 25: Lines on shipbuilding drawings*
- *Part 30: Basic conventions for views*
- *Part 31: Additional conventions for views*
- *Part 40: Basic conventions for cuts and sections*
- *Part 41: Cuts and sections for mechanical engineering drawings*
- *Part 50: Basic conventions for representing areas on cuts and sections*
- *Part 60: Additional conventions for cuts and sections*

Annex B forms an integral part of this part of ISO 128. Annex A is for information only.
