Procedure for milk recording for cows

Méthode de contrôle laitier des vaches

First edition — 1981-02-15

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 1546 was developed by Technical Committee ISO/TC 34, *Agricultural food products*, and was circulated to the member bodies in September 1978.

It has been approved by the member bodies of the following countries :

Australia	Germany, F.R.	Netherlands
Brazil	Hungary	Poland
Bulgaria	India	Portugal
Canada	Ireland	Romania
Cyprus	Israel	South Africa, Rep. of
Czechoslovakia	Kenya	Thailand
Egypt, Arab Rep. of	Korea, Rep. of	Turkey
Ethiopia	Libyan Arab Jamahiriya	United Kingdom
France	Mexico	

The member body of the following country expressed disapproval of the document on technical grounds :

New Zealand

This International Standard cancels and replaces ISO Recommendation R 1546-1970, of which it constitutes a technical revision.
