

Rubber footwear, lined conducting — Specification

Chaussures en caoutchouc conducteur, doublées — Spécifications

Second edition — 1981-12-15

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 2024 was developed by Technical Committee ISO/TC 45. *Rubber and rubber products.*

This second edition was submitted directly to the ISO Council, in accordance with clause 5.10.1 of part 1 of the Directives for the technical work of ISO. It cancels and replaces the first edition (i.e. ISO 2024-1972), which had been approved by the member bodies of the following countries:

Australia	Greece	Sweden
Austria	Hungary	Switzerland
Belgium	India	Thailand
Canada	Israel	United Kingdom
Czechoslovakia	New Zealand	USA
Egypt, Arab Rep. of	South Africa, Rep. of	USSR
France	Spain	

No member body had expressed disapproval of the document.
