Ref. No. ISO 2604/V-1978 (E)

Descriptors : steel products, pipes (tubes), steel tubes, pressure equipment, stainless steels, austenitic steels, specifications, chemical composition, appearance, weldability, mechanical properties, proof stress, acceptance inspection, mechanical tests, non-destructive tests, welded joints, filler metal, quality control, designation, marking.

Price based on 23 pages

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 2604/V was developed by Technical Committee ISO/TC 17, *Steel*, and was circulated to the member bodies in June 1976.

It has been approved by the member bodies of the following countries :

Australia	India	South Africa, Rep. of
Austria	Iran	Spain
Belgium	Ireland	Sweden
Bulgaria	Italy	Switzerland
Canada	Korea, Rep. of	Turkey
Czechoslovakia	Mexico	United Kingdom
Denmark	Netherlands	U.S.S.R.
Finland	Philippines	Yugoslavia
France	Poland	
Hungary	Romania	

The member bodies of the following countries expressed disapproval of the document on technical grounds :

Japan
U.S.A.
