Descriptors : road vehicles, motor vehicles, trailers, lighting equipment, signal lights, tests, measurement, voltage, electric power supply.

Price based on 7 pages

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO Member Bodies). The work of developing International Standards is carried out through ISO Technical Committees. Every Member Body interested in a subject for which a Technical Committee has been set up has the right to be represented on that Committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the Technical Committees are circulated to the Member Bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 3559 was drawn up by Technical Committee ISO/TC 22, *Road vehicles*, and circulated to the Member Bodies in November 1974.

It has been approved by the Member Bodies of the following countries :

Austria	Iran	Spain
Belgium	Ireland	Sweden
Bulgaria	Italy	Switzerland
Chile	Japan	Turkey
Czechoslovakia	Poland	U.S.S.R.
France	Romania	Yugoslavia
Hungary	South Africa, Rep. of	

The Member Bodies of the following countries expressed disapproval of the document on technical grounds :

Germany
United Kingdom
