Price based on 4 pages

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO Member Bodies). The work of developing International Standards is carried out through ISO Technical Committees. Every Member Body interested in a subject for which a Technical Committee has been set up has the right to be represented on that Committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the Technical Committees are circulated to the Member Bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 3599 was drawn up by Technical Committee ISO/TC 3, *Limits and fits*, and circulated to the Member Bodies in October 1974.

It has been approved by the Member Bodies of the following countries :

Australia	Finland	Poland
Austria	France	Romania
Belgium	Germany	South Africa, Rep. of
Bulgaria	Hungary	Sweden
Canada	India	Switzerland
Chile	Netherlands	Turkey
Czechoslovakia	New Zealand	U.S.S.R.

The Member Body of the following country expressed disapproval of the document on technical grounds :

United Kingdom
