Welded joints — Recommended practice for liquid penetrant testing

Jointes soudées — Pratiques recommandées pour l'examen par ressuage

First edition — 1977-09-01

UDC 621.791 : 620.179.111

Ref. No. ISO 3879-1977 (E)

Descriptors : welding, welded joints, tests, non-destructive tests, penetration tests.

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 3879 was developed by Technical Committee ISO/TC 44, *Welding*, and was circulated to the member bodies in August 1975.

It has been approved by the member bodies of the following countries :

Austria	Germany	Spain
Belgium	India	Sweden
Brazil	Ireland	Switzerland
Bulgaria	Italy	Turkey
Canada	Mexico	United Kingdom
Czechoslovakia	Netherlands	U.S.A.
Egypt, Arab Rep. of	New Zealand	U.S.S.R.
Finland	Romania	Yugoslavia
France	South Africa, Rep. of	

The member body of the following country expressed disapproval of the document on technical grounds :

Japan
