4254-3

First edition
1992-02-15

"The American National Standards Institute (ANSI) is the primary source and official sales agent for ISO standards in the United States. ANSI was granted an exclusive license to distribute and sell ISO standards, technical reports, drafts and other priced publications within the U S A. Under this license agreement ISO has granted to ANSI the right to reproduce ISO standards and drafts within the territories of the United States"

Tractors and machinery for agriculture and forestry — Technical means for ensuring safety —

Part 3: Tractors

*Tracteurs et matériels agricoles et forestiers — Dispositifs techniques
permettant d'assurer la sécurité —*

Partie 3: Tracteurs

Reference number
ISO 4254-3:1992(E)

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

International Standard ISO 4254-3 was prepared by Technical Committee ISO/TC 23, *Tractors and machinery for agriculture and forestry*, Subcommittee SC 3, *Safety and comfort of the operator*.

ISO 4254 consists of the following parts, under the general title *Tractors and machinery for agriculture and forestry — Technical means for ensuring safety*:

- *Part 1: General*
- *Part 2: Anhydrous ammonia applicators*
- *Part 3: Tractors*
- *Part 4: Forestry winches*
- *Part 5: Power-driven soil-working equipment*
- *Part 6: Equipment for crop protection*
- *Part 7: Combine harvesters, forage and cotton harvesters*
- *Part 9: Equipment for sowing, planting and distributing fertilizers*
