INTERNATIONAL ORGANIZATION FOR STANDARDIZATION • МЕЖДУНАРОДНАЯ ОРГАНИЗАЦИЯ ПО СТАНДАРТИЗАЦИИ • ORGANISATION INTERNATIONALE DE NORMALISATION

Rubber-coated fabrics — Determination of rubber-to-fabric adhesion — Direct tension method

Supports textiles revêtus de caoutchouc — Détermination de l'adhérence du caoutchouc au textile — Méthode par traction directe

First edition — 1979-12-15

UDC 678.01 : 539.61 : 677.06

Ref. No. ISO 4637-1979 (E)

Descriptors : coated fabrics, fabrics coated with rubber, rubber, tests, adhesion tests.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 4637 was developed by Technical Committee ISO/TC 45, *Rubber and rubber products*, and was circulated to the member bodies in April 1978.

It has been approved by the member bodies of the following countries :

Austria	India	Spain
Belgium	Italy	Sri Lanka
Brazil	Korea, Rep. of	Sweden
Canada	Mexico	Switzerland
Czechoslovakia	Netherlands	Thailand
Egypt, Arab Rep. of	Poland	Turkey
France	Romania	United Kingdom
Hungary	South Africa, Rep. of	USSR

No member body expressed disapproval of the document.
