Ref. No. ISO 6569-1981 (E)

Descriptors : gas analysis, natural gas, gas chromatographic analysis.

Price based on 5 pages

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International standard ISO 6569 was developed by Technical Committee ISO/TC 158, *Analysis of gases*, and was circulated to the member bodies in May 1980.

It has been approved by the member bodies of the following countries :

Australia	France	Romania
Belgium	Germany, F.R.	South Africa, Rep. of
Brazil	Mexico	Spain
Bulgaria	Netherlands	USSR
Czechoslovakia	Philippines	
Egypt, Arab Rep. of	Poland	

The member bodies of the following countries expressed disapproval of the document on technical grounds :

India
United Kingdom
