Instant tea — Determination of free-flow and compacted bulk densities

Thé soluble — Détermination de la masse volumique sans tassement et après tassement

First edition — 1982-09-15

UDC 663.958 : 531.755

Ref. No. ISO 6770-1982 (E)

Descriptors : agricultural products, tea, tests, determination, density (mass/volume), settling, sampling, test results.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 6770 was developed by Technical Committee ISO/TC 34, *Agricultural food products*, and was circulated to the member bodies in March 1981.

It has been approved by the member bodies of the following countries :

Australia	Iraq	South Africa, Rep. of
Austria	Israel	Spain
Chile	Kenya	Sri Lanka
Czechoslovakia	Korea, Rep. of	Switzerland
Egypt, Arab Rep. of	Netherlands	Tanzania
France	New Zealand	United Kingdom
Germany, F. R.	Peru	USA
Hungary	Philippines	USSR
India	Romania	Yugoslavia

No member body expressed disapproval of the document.
