Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been authorized has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 7083 was developed by Technical Committee ISO/TC 10, *Technical drawings*, and was circulated to the member bodies in September 1981.

It has been approved by the member bodies of the following countries :

Austria	India	Poland
Belgium	Ireland	Romania
Czechoslovakia	Italy	South Africa, Rep. of
Denmark	Japan	Spain
Finland	Korea, Dem. P. Rep. of	Sweden
France	Netherlands	Switzerland
Germany, F. R.	New Zealand	USSR

The member bodies of the following countries expressed disapproval of the document on technical grounds :

Canada
United Kingdom
USA
