
**Information technology — Volume and file
structure of read-only and write-once
compact disk media for information
interchange —**

Part 2:

Volume and file structure

*Technologies de l'information — Structure de volume et de fichier de
supports disque compact à lecture seule et à écriture unique pour
l'échange d'information —*

Partie 2: Structure de volume et de fichier

Contents

Section 1: General.....1

1 Scope1

2 Parts references.....1

3 Cross - reference.....1

3.1 Input1

3.2 Output.....2

4 Conformance2

4.1 Conformance of a medium2

4.2 Conformance of an information processing system2

5 Normative references2

6 Definitions.....3

6.1 file set.....3

6.2 group ID.....3

6.3 logical block.....3

6.4 user ID3

7 Notation3

8 Basic types3

8.1 16-Bit unsigned numerical values with most significant byte first.....3

8.2 16-Bit signed numerical values with most significant byte first.....3

8.3 16-Bit unsigned numerical values with both byte orders4

8.4 32-Bit unsigned numerical values with most significant byte first.....4

8.5 32-Bit signed numerical values with most significant byte first.....4

8.6 32-Bit unsigned numerical values with both byte orders4

8.7 Volume structure descriptor format.....4

8.7.1 Structure Type (BP 0).....4

8.7.2 Standard Identifier (BP 1).....4

8.7.3 Structure Version (BP 6).....5

8.7.4 Structure Data (BP 7)5
