## Contents

|                                                    | Page     |
|----------------------------------------------------|----------|
| <b>Section 1 - General</b>                         | <b>1</b> |
| <b>1 Scope</b>                                     | <b>1</b> |
| <b>2 Conformance</b>                               | <b>2</b> |
| 2.1 Types of conformance                           | 2        |
| 2.2 Conformance of information interchange         | 2        |
| 2.3 Conformance of devices                         | 2        |
| 2.3.1 Device description                           | 2        |
| 2.3.2 Originating devices                          | 2        |
| 2.3.3 Receiving devices                            | 2        |
| <b>3 Normative references</b>                      | <b>3</b> |
| <b>4 Definitions</b>                               | <b>3</b> |
| 4.1 bit combination                                | 3        |
| 4.2 byte                                           | 3        |
| 4.3 character                                      | 3        |
| 4.4 coded-character-data-element (CC-data-element) | 3        |
| 4.5 coded character set; code                      | 3        |
| 4.6 code extension                                 | 3        |
| 4.7 code table                                     | 3        |
| 4.8 combining character                            | 3        |
| 4.9 control character                              | 3        |
| 4.10 control function                              | 3        |
| 4.11 to designate                                  | 3        |
| 4.12 device                                        | 4        |
| 4.13 escape sequence                               | 4        |
| 4.14 Final Byte                                    | 4        |
| 4.15 graphic character                             | 4        |
| 4.16 graphic symbol                                | 4        |
| 4.17 Intermediate Byte                             | 4        |
| 4.18 to invoke                                     | 4        |
| 4.19 repertoire                                    | 4        |
| 4.20 to represent                                  | 4        |
| 4.21 user                                          | 4        |
| <b>5 Notation, code tables and names</b>           | <b>4</b> |
| 5.1 Notation                                       | 4        |
| 5.2 Code tables                                    | 5        |
| 5.3 Names of characters                            | 5        |
| <b>Section 2 - Character sets and codes</b>        | <b>6</b> |
| <b>6 Characters and character sets</b>             | <b>6</b> |
