|------------------------------------------------------------------------------------------------|----|
| Foreword . . . . .                                                                             | iv |
| Introduction . . . . .                                                                         | v  |
| 1. Scope . . . . .                                                                             | 1  |
| 2. Normative references . . . . .                                                              | 2  |
| 2.1 Identical Recommendations   International Standards . . . . .                              | 2  |
| 2.2 Paired Recommendations   International Standards equivalent in technical content . . . . . | 2  |
| 2.3 Additional references . . . . .                                                            | 2  |
| 3. Definitions . . . . .                                                                       | 2  |
| 3.1 Reference Model definitions . . . . .                                                      | 2  |
| 3.2 Service Conventions definitions . . . . .                                                  | 3  |
| 3.3 Network Service definitions . . . . .                                                      | 3  |
| 3.4 X.25 definitions . . . . .                                                                 | 3  |
| 3.5 X.96 definitions . . . . .                                                                 | 3  |
| 4. Abbreviations . . . . .                                                                     | 3  |
| 4.1 Network Service abbreviations . . . . .                                                    | 3  |
| 4.2 X.25 abbreviations . . . . .                                                               | 4  |
| 5. Overview . . . . .                                                                          | 4  |
| 5.1 Elements of the X.25/PLP-1984 used to support the OSI CONS . . . . .                       | 4  |
| 5.2 General operation of the X.25/PLP-1984 for supporting the OSI CONS . . . . .               | 5  |
| 6. Network connection establishment phase . . . . .                                            | 7  |
| 6.1 Primitive/Parameter and packet/field relationships . . . . .                               | 7  |
| 6.2 Procedures . . . . .                                                                       | 7  |
| 7. Network connection release phase . . . . .                                                  | 15 |
| 7.1 Primitive/Parameter and packet/field relationships . . . . .                               | 15 |
| 7.2 Procedures . . . . .                                                                       | 16 |
| 8. Data transfer phase — Data transfer service . . . . .                                       | 17 |
| 8.1 Primitive/Parameter and packet/field relationships . . . . .                               | 17 |
| 8.2 Procedures . . . . .                                                                       | 17 |
| 9. Data transfer phase — Receipt confirmation service . . . . .                                | 18 |
| 9.1 Primitive and packet/field relationships . . . . .                                         | 18 |
| 9.2 Procedures . . . . .                                                                       | 18 |
| 10. Data transfer phase — Expedited data transfer service . . . . .                            | 19 |
| 10.1 Primitive/Parameter and packet/field relationships . . . . .                              | 19 |
| 10.2 Procedures . . . . .                                                                      | 19 |
| 11. Data transfer phase — Reset service . . . . .                                              | 19 |
| 11.1 Primitive/Parameter and packet/field relationships . . . . .                              | 19 |
| 11.2 Procedures . . . . .                                                                      | 19 |
