|                                                                         | Page |
|-------------------------------------------------------------------------|------|
| Foreword.....                                                           | iv   |
| Introduction.....                                                       | v    |
| 1 Scope .....                                                           | 1    |
| 2 Normative references .....                                            | 2    |
| 3 Concepts.....                                                         | 3    |
| 3.1 Introduction.....                                                   | 3    |
| 3.1.1 Relationship of CGI segments to the graphic output pipeline ..... | 3    |
| 3.2 Creating segments.....                                              | 3    |
| 3.2.1 Segment identifiers .....                                         | 3    |
| 3.2.2 Creating and closing segments.....                                | 3    |
| 3.2.3 Non-retained data.....                                            | 4    |
| 3.2.4 Segment storage overflow.....                                     | 4    |
| 3.3 Segment attributes.....                                             | 4    |
| 3.3.1 Introduction .....                                                | 4    |
| 3.3.2 Segment highlighting.....                                         | 5    |
| 3.3.3 Segment visibility.....                                           | 5    |
| 3.3.4 Segment detectability .....                                       | 5    |
| 3.3.5 Segment display priority .....                                    | 5    |
| 3.3.6 Segment pick priority.....                                        | 5    |
| 3.3.7 Segment transformation .....                                      | 6    |
| 3.4 Segment display.....                                                | 6    |
| 3.4.1 Introduction .....                                                | 6    |
| 3.4.2 Segment regeneration .....                                        | 6    |
| 3.4.3 Quick update methods.....                                         | 8    |
| 3.4.4 Explicit segment display .....                                    | 9    |
| 3.5 Copy segment and the inheritance filter.....                        | 9    |
| 3.6 Delete and rename segments .....                                    | 10   |
| 3.7 Inquiry .....                                                       | 10   |
| 3.8 Picking .....                                                       | 10   |
| 3.9 State restrictions.....                                             | 11   |
| 4 Interactions with other parts of ISO/IEC 9636 .....                   | 12   |
| 4.1 Interactions with ISO/IEC 9636-2.....                               | 12   |
| 4.1.1 INITIALIZE and TERMINATE .....                                    | 12   |
| 4.2 Interactions with ISO/IEC 9636-5.....                               | 12   |
| 4.3 Interactions with ISO/IEC 9636-6.....                               | 12   |
| 5 Abstract specification of functions.....                              | 13   |
| 5.1 Introduction.....                                                   | 13   |
| 5.1.1 Data types employed.....                                          | 13   |
| 5.1.2 Validity of returned information.....                             | 13   |
| 5.2 Segment manipulation functions .....                                | 13   |
| 5.2.1 GET NEW SEGMENT IDENTIFIER .....                                  | 13   |
| 5.2.2 CREATE SEGMENT .....                                              | 13   |
| 5.2.3 REOPEN SEGMENT .....                                              | 14   |
| 5.2.4 CLOSE SEGMENT .....                                               | 14   |
| 5.2.5 COPY SEGMENT .....                                                | 15   |
| 5.2.6 DELETE SEGMENT.....                                               | 16   |
| 5.2.7 DELETE ALL SEGMENTS.....                                          | 16   |
| 5.2.8 RENAME SEGMENT.....                                               | 17   |
| 5.2.9 DRAW ALL SEGMENTS.....                                            | 17   |
