

TECHNICAL REPORT

ISO
TR 14618

First edition
1996-03-01

Middle atmosphere — Global model at altitudes between 30 km and 120 km, and wind model at altitudes above 30 km

*Atmosphère moyenne — Modèle global aux altitudes comprises entre
30 km et 120 km, et modèle de vent aux altitudes supérieures à 30 km*

Reference number

Contents	Page
Section 1 General	1
1.1 Scope.....	1
Section 2 Global model.....	2
2.1 Introduction	2
2.2 Basic assumptions and formulas.....	2
Section 3 Wind model.....	79
3.1 Introduction	79
3.2 List of symbols and constants.....	79
3.3 Data sources and methods of computation	79
3.4 Tables for the wind model of the middle atmosphere	80
