ICS 33.040.20

National foreword

This Published Document has been prepared by Technical Committee TCT/50. This document provides an overview and detailed description of the operation of the Calling Line Identification Presentation (CLIP) and Calling Line Identification Restriction (CLIR) supplementary services. It applies to all public networks in the UK that support PSTN and/or ISDN interfaces, including GSM networks. It applies to all circuit-switched calls originating or terminating in the UK.

This Published Document contains an ISC reference to another document, which is published as a Published Document. The following provides the cross-reference between these publications:

PD 6623 PNO-ISC Specification 007

This Published Document is not to be regarded as a British Standard.

Summary of pages

This document comprises a front cover, an inside front cover, the PNO-ISC title page, pages 2 to 13 and a back cover.

This Published Document, having been prepared under the direction of the DISC Board, was published under the authority of the Standards Committee and comes into effect on 15 April 2000
