

BSI Standards Publication

**Preparation of steel substrates before
application of paints and related products —
Collected information on the effect of levels
of water-soluble salt contamination**

National foreword

This Published Document is the UK implementation of CEN ISO/TR 15235:2024. It is identical to ISO/TR 15235:2001. It supersedes DD ISO/TR 15235:2001, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee STI/28, Paint systems for non-metallic substrates.

A list of organizations represented on this committee can be obtained on request to its committee manager.

Contractual and legal considerations

This publication has been prepared in good faith, however no representation, warranty, assurance or undertaking (express or implied) is or will be made, and no responsibility or liability is or will be accepted by BSI in relation to the adequacy, accuracy, completeness or reasonableness of this publication. All and any such responsibility and liability is expressly disclaimed to the full extent permitted by the law.
