

Short-circuit currents in three-phase a.c. systems —

**Part 1: Factors for the calculation of
short-circuit currents according to
IEC 60909-0**

ICS 17.220.01; 29.240.20

National foreword

This Published Document reproduces verbatim IEC TR 60909-1:2002. It supersedes PD 7639-1:1994 which will be withdrawn on 2004-07-01.

The UK participation in its preparation was entrusted to Technical Committee PEL/73, Short circuit currents, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.
