

BSI Standards Publication

Communication networks and systems for power utility automation

Part 7-6: Guideline for definition of Basic Application
Profiles (BAPs) using IEC 61850

National foreword

This Published Document is the UK implementation of IEC TR 61850-7-6:2019.

The UK participation in its preparation was entrusted to Technical Committee PEL/57, Power systems management and associated information exchange.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
