

BSI Standards Publication

**Information technology — Process
assessment — Process capability assessment
model for quality management**

National foreword

This Published Document is the UK implementation of ISO/IEC TS 33073:2017.

The UK participation in its preparation was entrusted to Technical Committee IST/15 Software and systems engineering.

This technical specification refers to a process assessment that meets the requirements of ISO/IEC 33004, as well as guidance on interpretation of process purposes and outcomes within Information technology, as defined in ISO/IEC 33020. It is not the intent of this technical specification to imply that BS EN ISO 9001:2015 users need to adhere to the information contained in order to comply with ISO 9001.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
