

**Accuracy (trueness and
precision) of
measurement methods
and results —
Practical guidance
for the use of
ISO 5725-2:1994 in
designing,
implementing and
statistically analysing
interlaboratory
repeatability and
reproducibility results**

ICS 03.120.30; 17.020

National foreword

This Published Document reproduces verbatim ISO/TR 22971:2005.
The UK participation in its preparation was entrusted to Technical Committee SS/6, Precision of test methods, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages
